## Thank you for your financial support

We would like to thank everyone who supported us financially during 2009. Without your generous support paying Company bills along with building and truck maintenance would have been impossible. With your donation and a grant we were able to have our bay room floor sealed with a colorful paint and lined that allows getting the trucks in the station much easier and with the anticipated electric increase this year the membership voted to have the windows in the station replaced with an energy efficient quality which is saving on the heating cost. Please note that we are 501C(3) approved so all your donations are tax deductible.

## Donations

The mission of the Haneyville Fire Company is first the preservation of life and second the protection of property. Our operating expenses increase annually. In order to train, practice, purchase new better equipment and maintain our building we need community wide support. We need your help and support now more than ever before. Your tax deductible contribution enables your Fire Company to serve you and your family. We exist for one purpose...to be there if you or your neighbors need us. If you haven't donated in the past please consider donating generously. We greatly appreciate

## Thank you Volunteers

We would like to thank all community members who volunteer their time and make the donations of pies and cakes for our fund raising events. Your contributions are what makes our events successful.

## 2009 Emergency Calls

In 2009 the Haneyville Volunteer Fire Company responded to the following emergencies: 6— Arching/Wires Down, 19— Medical Emergencies, 6— Motor Vehicle Accidents, 2— Structure Fires, 1— Flue Fire, 2— Brush & Forest Fires, 2— Smoke Investigations, 4— Standby or cancelled en-route, 2— Fuel & Oil spills, 2— Search & Rescue and hosted 2 Training Sessions at our Station.

## Fire Deaths and Injuries: Prevention Tips

Never leave food unattended on a stove. Keep cooking areas free of flammable objects (such as, potholders and towels). Avoid wearing clothes with long, loose-fitting sleeves when cooking. Never smoke in bed or leave burning cigarettes unattended. Do not empty smoldering ashes in a trash can, and keep ashtrays away from upholstered furniture and curtains. Never place portable space heaters near flammable materials (such as, drapery). Keep all matches and lighters out of reach of children. Store them up high, preferably in a locked cabinet. Install smoke alarms on every floor of the home, including the basement, and particularly near rooms in which people sleep. Use long-life smoke alarms with lithium-powered batteries and hush buttons, which allow persons to stop false alarms quickly. If long-life alarms are not available, use regular alarms, and replace the batteries annually. Test all smoke alarms every month to ensure they work properly. Devise a family fire escape plan and practice it every 6 months. In the plan, describe at least two different ways each family member can escape every room, and designate a safe place in front of the home for family members to meet after escaping a fire. If possible, install or retrofit fire sprinklers into home.
